3 families of meerkats are stranded in buckets in a swamp but luckily a system of ropes and pulleys is in place to haul them to safety. All they need is 4 or 5 scouts (or cubs) to steer the pulley and hook it on to their bucket and lift them to dry land.

Come to the scout arena for the fun of rescuing the meerkats and win prizes.

High uniform standard because AFD is a public event. No costs. Just organise a team, turn up and enjoy!
